Amdt dat June 20, 2003

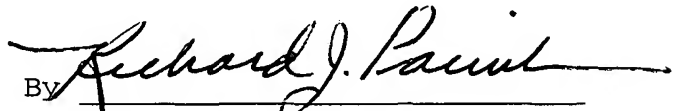

REMARKS/ARGUMENTS

Applicants have cancelled Claims 2-4. Original Claim 1 remains in the application.

Applicants have amended the Fig. 1 and added new Fig. 2, accordingly. Of note is that the wireless receiver mentioned by the Examiner in the parent application can be understood as being properly depicted since box 10, which now is identified as including at its input signals from antennas, satellite or pager, is inherently part of a wireless receiving system. The Applicants submit that support for both the amended and the new figure are found in the Specification as filed, and, as such, does not add new matter.

Applicants have amended the Specification adding a cross-reference to related application and to include references to Fig. 1 and new Fig. 2. No new matter has been added

Respectfully submitted,
